

SEO Writing That Just Works In 7 Easy Steps

"The Checklist"

Use this printable checklist to make sure that all of your articles are SEO rockstars!

If you need a refresher, you can read the full article here:

<https://bloggingblackbook.com/seo-writing-7-easy-steps/>

1. Use The Keyword Phrase At The Beginning Of The Post Title
2. Use The Keyword Phrase In The Permalink Of The Page
3. Use The Keyword Phrase At The Beginning Of The First Paragraph
4. Link To Other Relevant Articles On The Topic
5. Use The Keyword Phrase In At Least One Subheading
6. Use The Keyword Phrase And Related Phrases Throughout The Article
7. Use The Keyword Phrase In The Meta Description Of The Page

Additional SEO Writing Tips

The article should be at least 500 words in length with a keyword density of at around 1%.

The article should contain internal as well as outbound links to related articles.

Keep article permalinks (also called URL or slug) short and remove unnecessary words.

Make sure your article easy to read, with concise sentences.

Make sure your article includes several images with alt tags that include the keyword phrase.
